Books Descriptions

This study guide is designed for Christians of any background. Its purpose is to encourage us to reach a greater level of spirituality and help us apply the principles of Gazing into Glory, moving from logos head knowledge to rhema heart experience. Bruce Allen emphasizes that to "gaze into glory" is not just for a select few, but for every child of God. He provides clear instruction on how to "get there." The study guide follows the book closely and attempts to emphasize each step on this adventure, with the purpose of helping us to experience the instruction given in Gazing into Glory, not just read it. The study guide can be done individually or in groups. Occasionally some additional comments from the CD Album, Gazing into Glory, have been included to provide further insight. Those whose only interaction with the Spirit of God has been prayer, hymns, and church attendance will find a comfortable place to learn in this course. Those who are already experienced in visions or dreams
