# Books Descriptions

The time-saving resource every architect needsThe Architect's Studio
Companion is a robust, user-friendly resource that keeps important
information at your fingertips throughout the design process. It includes
guidelines for the design of structure, environmental systems, parking,
accessibility, and more. This new sixth edition has been fully updated with
the latest model building codes for the U.S. and Canada, extensive new
information on heating and cooling systems for buildings, and new
structural systems, all in a form that facilitates rapid preliminary design.
More than just a reference, this book is a true companion that no
practicing architect or student should be without.This book provides quick
access to guidelines for systems that affect the form and spatial
organization of buildings and allows this information to be incorporated
into the earliest stages of building design. With it you can:Select,
configure, and size structural systems Plan for building heating and cooling
